Paws, Paint and Purpose: M.K. DAV Public School Celebrates International Tiger Day

The Institution celebrated International Tiger Day with great enthusiasm through a creative celebration featuring artistic activities inspired by the beauty and grace of the tiger. The celebration aimed to to recognise the splendour of wildlife and the importance of protecting the natural habitats that sustain such magnificent creatures.

Students took part in Face Painting, Mask Making and Paper Plate Tiger Face craft activities with great interest. Each of their creations captured the distinctive charm of the tiger and reflected their imagination and admiration for its place in the ecosystem.The colourful artwork displayed across the campus transformed the celebration into an joyful learning experience where creativity and environmental consciousness came together naturally.

The Honourable Principal MRS. INDRANI CHATTERJEE praised the creative endeavour and shared her thoughts on the importance of such activities in a child's learning journey. She stated that artistic engagements related to nature help students develop a closer bond with the environment and encourage them to look at wildlife with greater sensitivity. She believes that such experiences make learning more relatable by allowing children to understand important issues through their own creativity and participation.

The celebration served as a gentle reminder that every species carries a unique story within the tapestry of Nature. Through their craftsmanship and imagination, students embraced the message of tiger conservation and discovered that even a simple creative activity can awaken a lasting regard for the planet's precious wildlife.
