

## **Rhymes with a Message: Poem Recitation on Road Safety at M.K DAV Public School,**

### **Daltonganj**

As a part of Road Safety Month observance , the institution organised a Poem Recitation activity in its Junior Wing to spread awareness about road safety in a creative and age-appropriate manner. Young learners enthusiastically recited poems highlighting the importance of traffic rules, safe crossing and responsible behaviour on roads. Through rhythm and expression, the students conveyed powerful messages proving that awareness can begin at an early age in joyful ways.

The activity not only enhanced students' confidence and language skills but also sensitised them to the value of safety and discipline in everyday life.

The Honourable Principal, MRS. INDRANI CHATTERJEE shared that introducing road safety concepts through poetry helps young children internalise values naturally and joyfully. She stated that rhythm and expression make learning engaging and memorable for young minds. She further added that such creative initiatives sow the seeds of responsible citizenship and encourage children to practise safety in their daily lives. She expressed hope that these lessons would remain with the students as lifelong habits.
