

M.K DAV Public School, Daltonganj observed World Dyslexia Awareness Day with great enthusiasm and purpose. The day aimed to spread awareness about dyslexia and promote empathy and support for individuals with learning differences.

A series of engaging activities were organized to mark the occasion. Students from various classes participated in poster making and portrait making competitions, showcasing their creativity and understanding of the theme. The highlight of the day was a rally taken out by students and teachers within and around the school premises, carrying placards with slogans that emphasized the need for awareness, acceptance and inclusion.

Leading the rally our honourable Principal, Mrs. Indrani Chatterjee, reflected that true education begins with understanding and grows through compassion. She reminded students that every child learns in their own beautiful way and possesses unique strengths waiting to shine. Encouraging the young minds to lead with kindness and awareness, she added that a truly inclusive world is one where every learner is seen, supported and celebrated.
