

Strengthening Infrastructure with Modern Additions at M.K DAV Public School, Daltonganj

Today marked a significant step forward in enhancing the infrastructure of the Institution with the installation of a 58.5 kVA generator and an advanced digital copier equipped with colour scanning, printing and duplex functionality . As a part of this new beginning, sacred rituals were performed seeking blessings for the effective and uninterrupted use of these new equipments.

The Honourable Principal, MRS. INDRANI CHATTERJEE remarked that these additions reaffirm the school's endeavour to provide a smooth and well-supported learning environment. The generator will ensure reliable power backup while the modern copiers will facilitate efficient academic and administrative work, ultimately contributing to a more productive and technologically enriched educational experience.
