

MK DAV PUBLIC SCHOOL, DALTONGANJ

PTM CUM ART AND SCIENCE EXHIBITION

MK DAY PUBLIC SCHOOL, DALTONGANJ

ART AND SCIENCE EXHIBITION

An Enriching PTM and a Creative Corner: A Confluence of Learning, Expression and Engagement at M.K DAV Public School, Daltonganj

The school premises today thrummed with enthusiasm and purposeful engagement as a consultative Parent-Teacher Meeting was successfully conducted for classes Nursery to Std. IX . The occasion served as a meaningful platform to foster constructive dialogue between parents and educators ensuring a shared commitment towards the holistic development of students.

Adding a distinctive vibrancy to the day, the Junior Wing curated an inspiring exhibition titled “Creative Corner – A Blend of Art and Science.” This thoughtfully designed curated display featured an impressive array of working science models, intricate art and craft creations, and innovative 3D representations across subjects such as English and Mathematics prepared by students of classes I to V. The exhibits stood as a testament to the learners’ imagination, conceptual clarity and hands-on engagement with their curriculum. Their ability to articulate ideas and demonstrate concepts reflected a learning environment that nurtures curiosity and experiential understanding.

An engaging and insightful interaction with the Honourable Principal, MRS. INDRANI CHATTERJEE further enriched the occasion. The Honourable Principal interacted extensively with the students as they presented and explained their projects. She appreciated their efforts while encouraging them to articulate their ideas with clarity and confidence. This direct interaction not only motivated the young learners but also added depth and value to the overall experience.

Parents expressed immense delight and appreciation for the initiative, acknowledging the school’s efforts in creating avenues that go beyond conventional learning. The exhibition not only showcased academic integration but also instilled a sense of pride and accomplishment among young learners.

The Honourable Principal articulated that the initiative behind organising “Creative Corner” stemmed from a vision to promote experiential and interdisciplinary learning. By seamlessly blending art with science and other core subjects, the school aims to cultivate critical thinking, creativity and deeper conceptual understanding among students. Such platforms, she emphasised, empower learners to move beyond textbook knowledge and engage in meaningful exploration while also encouraging parental involvement in the educational journey. The initiative reflects the institution’s commitment to fostering a dynamic, inclusive and forward-looking learning environment.

Overall, the day stood as a celebration of collaboration, creativity and continuous learning, leaving an indelible impression on every heart and mind present.
