M.K. DAV Public School, Daltonganj Reaches Out to Little Lives Through an Act of Compassion

The Institution undertook a humanitarian initiative to bring smiles and a little extra happiness into the lives of young children residing at Missionaries of Charity. The initiative received an enthusiastic response from students of Classes X, XI and XII, their parents, as well as the teaching and non-teaching staff. Everyone came forward with great warmth to contribute essential items for children in the age group of 1–3 years.

The donations included baby food such as Cerelac , Nan Pro Powder, Lactogen, sooji, dalia, cornflakes ,diapers, Johnson's hair oil/soap/ shampoo/ baby cream, woollen clothes, thermocot, toys and other age-appropriate essentials. All articles were new and unused, while food and personal care products were checked for proper packaging and expiry dates. Each contribution carried a thoughtful gesture of care for the little recipients. The thought that these children would have new clothes to wear, toys to play with and essential items for their daily needs made the occasion especially heartening. The happiness of giving something to children who would cherish these little gifts made the initiative a joyful experience for everyone involved.

MRS. INDRANI CHATTERJEE, the Honourable Principal expressed her heartfelt gratitude to the students, parents and all members of the teaching and non-teaching staff for their generous contributions. She appreciated the way everyone came forward for the cause and observed that such efforts give children an opportunity to practise kindness in their everyday lives. She emphasised that education must also prepare young minds to understand the feelings and needs of others. When students take part in acts of giving, they learn to value what they have and experience the happiness that comes from bringing a smile to someone else's face.

She further remarked that little children deserve warmth, care and the simple joys of childhood. Even a small gift can make them feel special and bring excitement to their day. She hoped that the experience would leave a lasting impression on the students and inspire them to remain considerate towards those who need care and attention.

The donation drive was a happy reminder that the joy of childhood becomes even more special when others make an effort to share it. The initiative brought the school community together for a cause that touched young lives and gave everyone the satisfaction of doing something kind for others.
