

Oratory for a TB- Free Future at M.K DAV Public School Daltonganj

In continuation of the TB Mukta Bharat initiative, the institution also conducted a Hindi Elocution Session to bring students closure to the cause. The event was carried out under the guidance of Mr. Kanhaiya Rai, PGT Hindi and encouraged participants to articulate their thoughts on tuberculosis and reflect on the importance of awareness and early action.

Students spoke with clarity and conviction presenting perspectives that highlighted empathy and insight rooted in correct judgement . Their expressions revealed not only knowledge of the issue but also a growing sensitivity towards those affected. The activity created a thoughtful environment where words became a means to inform and inspire.

This initiative aligns with the vision of the Honourable Principal, MRS. INDRANI CHATTERJEE for creating avenues where students can express themselves with clarity and purpose. In her view, such platforms help students organise their thoughts and present them with confidence. With continued exposure, they gradually develop a balanced outlook and recognise health concerns around them and respond with care and responsibility. She believes that such sessions help students learn that their words have the power to inspire change and drive collective progress. It is a vital step in their journey toward becoming well-rounded individuals who are as socially conscious as they are academically bright.
