

Earth Day Celebration at M.K DAV Public School, Daltonganj Fostering Environmental Awareness

The campus was filled with spirit and color today as students observed Earth Day , turning the school into a vibrant center for nature conservation. In the Junior Wing , the atmosphere was one of curiosity and creativity. Our Budding Environmentalist spent the morning designing and building impressive models that showcased different ways to protect our natural resources. From miniature wind turbines to recycled water systems, these projects highlighted the ingenuity of the younger generation and their growing understanding of how to live more sustainably.

In the Senior Wing , the day took a more reflective turn as students gathered to take a formal oath to protect the environment. This was followed by a painting competition where our dynamic environment enthusiasts used their brushes to highlight the beauty of the Earth. These activities made it clear that the Institution is dedicated to raising a generation that truly cares for the world around them.

The Honourable Principal, Mrs. INDRANI CHATTERJEE expressed her profound admiration for the students' spirited engagement and the heartfelt dedication displayed throughout the celebrations. She appreciated the Junior Wing for their inventive models and the Senior Wing for the sincerity they showed during their environmental oath. She remarked that seeing such a strong sense of responsibility in the students is truly inspiring. She concluded by noting that these celebrations are a vital part of learning, as they help every student realize their potential to create a positive impact on the world.
