

A Step Towards a TB-Free India: Students Take the Ni-Kshay Shapath at M.K DAV Public School Daltonganj

In a meaningful stride towards building a healthier and more aware society, students of the Institution solemnly participated in the TB Mukht Bharat Ni-Kshay Shapath today. The pledge served as a powerful reminder of their role as responsible citizens in supporting the national mission to eradicate tuberculosis. Mr. Jitendra Tiwari, PGT English, was present to guide the students and also took the pledge along with them.

During the oath, students vowed to lead the charge against tuberculosis by educating their communities and supporting patients with genuine empathy. Beyond mere awareness, they committed to dismantling the stigma that surrounds the disease and dedicated themselves to the vision of a TB-free India.

At the heart of this effort lies the belief of the Honourable Principal, MRS.INDRANI CHATTERJEE that such initiatives are vital to holistic education. The aim is not merely academic excellence but the nurturing of socially conscious individuals who are prepared to contribute meaningfully to society. By involving students in national health missions, the institution seeks to nurture a sense of responsibility along with a more conscious understanding of and involvement in the community. She reiterates that such experiences help connect classroom learning with real-life concerns and gradually shape students into thoughtful and responsible citizens.
